Description

RAMAPET N2B is a food grade PET copolymer resin partially made from renewable raw materials that is designed specially for water applications. The resin can be processed at lower temperature and allow faster cycle time on injection molding. The resin offers excellent clarity, color, good strength characteristics and a low acetaldehyde content to help minimize impact on aroma and flavor. Suitable for still water, edible oil and miscellaneous container applications.

RAMAPET N2B resin is considered safe for food packaging applications based upon compliance with FDA regulation 21 CFR Section 177.1630, European Legislation EU 10/2011 and RoHS Directive 2002/95/EC and its subsequent amendments for heavy metal contents.
