

Type 8912 Resin

DESCRIPTION

Type 8912 resin is a clear resin suitable for extruded application such as bulk continuous filament yarn and thermo formable sheet where clarity, toughness, and consistent processing performance are a requirement.

Type 8912 resin complies with the Federal Food, Drug, and Cosmetic Act for certain food packaging applications and processing conditions. Letter detailing specific FDA clearances are available upon request.

For processing details please contact your StarPet Inc. representative.

WARRANTY

StarPet Inc. warrants that its products will comply with the specifications and related regulatory compliance detailed in its publications. No other warranty, either expressed or implied regarding the suitability of the product for any particular purpose is made. The Buyers are expected to make their own determination about the safety, health, environmental protection and suitability of use for their intended purpose. No warranty is made of the merchantability or fitness of any product, and nothing herein waives any of the Seller's conditions of sale.
